Right in
your inbox.

CUSTOMIZE

Users can have one or many different layouts of the same report. Columns can be hidden, widths altered and printing options adjusted to meet their customization demands.

Adapt critical i-Production reports to match your production system.

SCHEDULE

The scheduling feature allows the user to automatically run reports when wanted; daily, weekly, monthly, quarterly, yearly or on demand.

*Timed automation to improve your efficiency.
Eliminate the phone call or faxing.*

EMAIL

Reports can be delivered via email. You will receive a link in your inbox to the designated report and it will be available in a report viewing area.

Get the most out of your staff, veterinarian, nutritionist and other partners by giving them access to your production data.

Harness the power of your data and increase your profits.
