

Job Description

Job Title: Senior Developer	Date: January 15, 2020
Reports To: Director of IT	FSLA Status: Base Salary + Bonus Incentive

Summary/Purpose:

MetaFarms, an industry SaaS leader in the Ag Tech space, is seeking a Senior Developer to join our development team. Your role will be building and supporting our web-based and mobile applications. Supported by a team, you will be involved in design, coding, testing, and deployment in our enterprise environment to an international customer base.

Responsibilities:

- Own the technical development of web-based and mobile applications in all stages of project lifecycle
- Collaborate with development, support, and sales teams to design and deliver solutions
- Continually improve our processes and technology stack as the organization continues to grow
- Investigate and resolve issues in development, test and production environments
- Mentor and lead junior developers
- Stay plugged in and up-to-date on the ever-changing technology landscape, bring new ideas forward as we are not afraid to fail

Qualifications:

- 7+ years experience in C#, .NET and MVC
- 5+ years experience SQL & SSIS
- 3+ years mobile application development with Xamarin
- Experience with JavaScript, JSON and building/maintaining API's

Above all else, a passion for quality and desire to grow are must haves for our company culture.
